

About the Law Offices of Robin Bresky, Appellate Law Firm

Boca Raton, Palm Beach County, Broward County & the 4th District Court of Appeals

The Law Offices of Robin Bresky only handles appellate law and litigation support. We work with attorneys throughout the state of Florida, and are adept at working on all types of civil cases including family law, probate, commercial litigation, and personal injury. We focus on the processes involved, with a commitment to achieving ideal results.

Appellate Work

Appellate attorney Robin Bresky will examine the original ruling and trial process identifying which potential appellate issues to emphasize and which to abandon. It is in essence an analytical examination of what has taken place thus far. It involves an in-depth review of applicable legal theories and appeal strategy, ultimately leading to the written brief.

What you can expect from the Law Offices of Robin Bresky:

- Unwavering attention to detail and a meticulous review of your case / trial
- Research, research, and more research
- The capability to “speak the appellate judges’ language” as the appeal is presented
- A deep understanding of the appeal process and appellate law
- Exceptional writing ability

Note that in addition to trial verdict appeals, we handle other judgments (such as summary judgments), motions to dismiss, writs of certiorari, writs of prohibition, interlocutory and administrative appeals.

Litigation Support & Trial Assistance

Litigation Support is our firm’s second area of focus. In a high stakes case where the losing party can be expected to appeal, it just makes sense to consider the tactics and strategies that will ultimately win the case in front of a jury or at appeal. Prior to and during a trial, we are able to efficiently provide assistance with:

- Planning your case strategy and helping clients protect or attack significant rulings in advance of trial and judgment
- Identifying those precautions that can greatly enhance the trial attorney’s chances of winning on appeal, should it come to that
- Pretrial motions, summary judgment motions, motions to suppress
- Definition of the issues in terms favorable to your client
- Investigation and research activities
- Documentation, drafting and writing
